

# MGA

## MGA-Converge Advisory Group Meeting

**CONVERGE**  
STRATEGIES

16 February 2024

# Agenda

**01**

**Project Goals and  
Outcomes**

**02**

**Advisory Group  
Participation  
Expectations**

**03**

**Workshop Series**

# Project Goals

## Objective alignment

Outline the importance of coordinating energy security policy across state lines

## Convening Stakeholders

Create an advisory group by identifying diverse energy and security professionals in each MGA state

## Research

Analyze local, state, and federal energy security policies to identify best practices and opportunities for alignment

## Outcome

Develop a framework outlining steps governors can take to align energy security policy within their own state, and with their neighboring states

# Project Outcomes

**Outcome:** Create a framework for the Midwestern Governors Association (MGA) that aligns multiple planning processes for governors to develop cohesive energy strategies and policies.

1

Align the policy, regulatory, planning, operational, and legislative capabilities of Governors to support energy strategy goals for states.

2

Maximize the impact of energy policy to support energy resilience, equity, and economic development.

3

Improve planning and resource integration with neighboring states.

# Advisory Group Participation Expectations

## Purpose

**Group members will convene to support the initial scoping of the project and establish a roadmap of activities for the MGA membership**

## Knowledge Building

**Members will be asked to represent their subject matter expertise related to their personal or organizational role in supporting energy policy, regulation, planning or investment**

## Information Sharing

**Members will provide content in the form of documents and resources to serve as best practices and templates for the development of the framework**

## Time Commitment

**Monthly meetings will be held along with bi-annual workshops**
